Review and evaluate these web sites

<http://www.dhmo.org/>

(FAKE - dihydrogen oxide, i.e. water)

<http://www.britannica.com/EBchecked/topic/278760/hydrogen-peroxide>

(TRUE - hydrogen peroxide)

<http://australianmuseum.net.au/Drop-Bear>

(FAKE - fictitious bear in Australia)

<http://insects.tamu.edu/fieldguide/cimg246.html>

(TRUE - *Tinea pellionella* - case making clothes moth)

Explain in your own words on a separate piece of paper why each of the 4 web sites are or are not appropriate for research purposes.
